Texas DIR Contract Information

Contract # DIR-SDD-578

Video Surveillance Solutions

ADT offers a broad range of video security camera surveillance/CCTV solutions that can help you reduce many of the top risks that government facilities like yours face. Video surveillance can be an important tool in helping you reduce and prevent crimes, protect critical infrastructure, and increase efficiency of personnel. From installation to maintenance, ADT can help you address your unique needs for any size project.

ADT has more than 130 years of experience in providing proven security solutions, and have been involved with thousands of system integration projects at government facilities and critical infrastructure sites. This experience positions us to help you assess your current and future risks and address the issues you may be facing.

To schedule a **free risk assessment** of your facility, contact ADT National Accounts Manager Mark Lessing today at (210) 491-3234 or email mlessing@adt.com.
