

ADT Commercial

Hilton Hotels case study

An elite partnership

ADT Commercial is pleased to be a preferred partner of Hilton Hotels. Organizations honored with this designation are all top performers in their respective categories and have completed a rigorous vetting process to ensure that the products and services provided are of the highest quality and in alignment with Hilton's exceptional brand standards.

Supported by Centers of Excellence

ADT Commercial national offices and local experts are supported through technology hubs based in California, Louisiana and Washington D.C. In these Centers of Excellence, dedicated teams of industry veterans bring years of experience and up-to-the-minute knowledge to every project. Decades of know-how working in the hospitality and casino environments give us the ability to work quickly and efficiently, minimizing disruption to your business and your guest's experience. Once the

design is finished, we can build and test prototypes—when applicable—in our Centers of Excellence and work closely with local technicians to help ensure that your system installation and implementation goes off without any hitches.

A national footprint with local service expertise

Hilton is one of the world's largest, fastest growing hospitality companies. They operate hundreds of hotel properties across the nation—each with its own unique fire and safety challenges. ADT Commercial is ideally suited to meet their needs because we take a customized approach to every project, combining the national strength of our Centers of Excellence with local hands-on expertise.

The Hilton solution

ADT Commercial provides a wide range of fire and safety solutions for the hospitality and casino industries backed by a team of experienced professionals who understand your unique challenges.
