Real-time data to help protect your business

eSuite^{SM} account management enables you to make account updates, view system activity history, and identify and respond to issues in real time. Gain actionable insights from a single platform to help inform critical business and operational decisions.

Account Management

- Add and update your contacts and alarm codes
- Place systems on test
- Verify and update open and closing schedules
- Pay and view invoices
- Manage users and permission roles
- Manage permits

Service, Installation and Inspections

- Request service calls
- View service history, details and technician resolution notes
- Track installation work
- Access deficiency repairs
- View real-time service call status

Activity and Reporting

- Access alarm history and activity
- Scheduled reporting capabilities for reports and dashboards
- View service, installation and inspection reports
- View video verified alarm events

Real-time activity reporting

View critical location and business activity with trending graphs and customizable dashboards. Easily review location data essential to helping protect your business.

Designed for the way you work

Our enhanced mobile application adds flexibility by allowing your team to utilize the key features of eSuite on their mobile device.
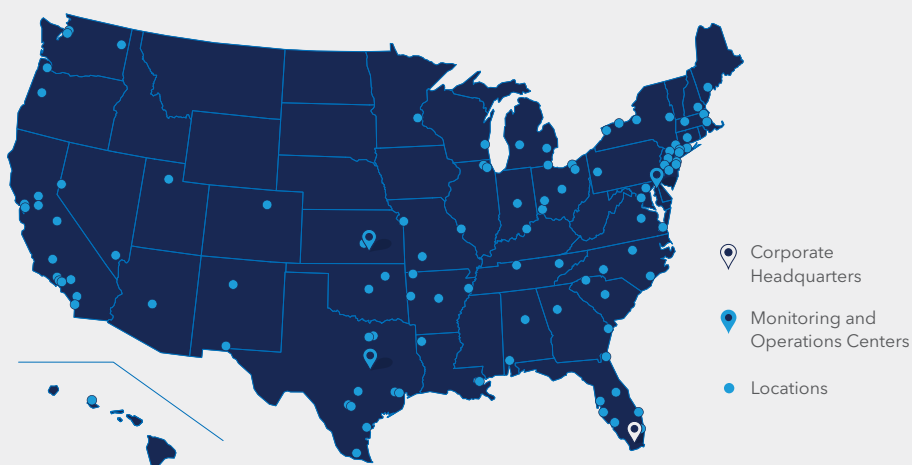

Our central station monitoring services support and strengthen your teams

We operate company-owned UL Certified monitoring centers, all with redundant backup. Automated signal load balancing and backup architecture helps to ensure that your critical intrusion, fire and life safety alarms receive our fastest possible response regardless of weather or other emergencies.

ADT Commercial holds the following certifications:

- UL Certified
- FM Approved
- New York City Fire Monitoring Rated

- TMA Certified Five Diamond Central Station
- ASAP (Automated Secure Alarm Protocol)
