

# Evolving the Future of Security Guarding

EvoGuard™ by ADT Commercial is a new suite of intelligent autonomous guarding solutions and services currently in development\* that will help to cost-effectively enhance your commercial security program.

These innovative guarding technologies, including autonomous humanoid robots and indoor drones, will help provide comprehensive security surveillance by conducting automated patrols to see and engage with many areas a human guard can.

## Better Alarm Investigation and Verification

- ▶ Verify accuracy of alarms quickly and provide intel to first responders
- ▶ Document unbiased evidence and help to deter further activity by an intruder
- ▶ Conduct automated patrols without fatigue

## Address Labor Shortages in the Market

- ▶ Reduce challenges of high turnover within the guarding industry
- ▶ Leverage talent in more efficient positions by automating repetitive patrol tasks

## Reliable Data Capture and Storage

- ▶ Always-on 360° cameras allow for efficient evidence data and video capture
- ▶ Communicate event details with system devices through an integrated cloud-based portal
- ▶ Offset video system costs by reducing the need for multiple cameras in several locations

## Reduce Risk to Human Life Through Innovation

- ▶ Deploy guarding technology in hazardous or high-risk scenarios
- ▶ Operate robot remotely with VR to investigate unknown situations
